MOHAMED AMIN SLEEM

Data Analyst | Manufacturing & Operations Analytics | Power BI, SQL, Python, Pandas

Cairo, Egypt | 01152750855 | mohamed.amin.sleem@gmail.com

Portfolio: moahmedaminsleem.github.io | LinkedIn: linkedin.com/in/mohamed-amin-sleem

PROFESSIONAL SUMMARY

Data Analyst specializing in manufacturing and operations analytics, with hands-on experience building automated performance measurement, production-target, incentive, and executive-reporting workflows for garment manufacturing. Applies Advanced Excel, Power Query, Power BI, DAX, SQL, Python, and Pandas to turn daily operational data into validated, management-ready reporting. Works AI-native as a vibe coder: directed AI end to end to independently design, build, and ship a complete internal company web platform — while personally reviewing every calculation, business rule, and output before use.

CORE SKILLS

Business Intelligence and Reporting: Power BI, Power Query, DAX, Data Modeling, Data Visualization, KPI Reporting, Executive Reporting, Dashboard Development

Data Analysis and Automation: Advanced Excel, Excel Automation, SQL, Python, Pandas, Data Cleaning, Data Validation, Folder-Based Data Ingestion, AI-Assisted Scripting

Manufacturing and Operations Analytics: Manufacturing Analytics, Operations Analytics, Production Performance Measurement, Efficiency Analysis, Production Target Planning, Incentive and Bonus Logic, Quality Reporting, Root-Cause Analysis

AI-Assisted Development (Vibe Coding): AI-Directed Full-Platform Building, Prompt Engineering, AI Workflow Automation, Web Platform Development (HTML, CSS, JavaScript)

Additional Systems: Microsoft Access, Oracle Siebel CRM

PROFESSIONAL EXPERIENCE

Data Analyst

Marib International Garments, El Obour, Al Qalyubiyah, Egypt | June 2026 - Present

- Independently designed and developed an automated Excel and Power BI reporting ecosystem within the first month of the role, consolidating daily inputs from Production Engineering, Quality, HR, Receiving, Packing, Shipping, and Finishing.
- Built dynamic performance-tracking workbooks for workers, supervisors, production lines, departments, quality, packing, shipping, finishing, and factory-level management.
- Developed monthly production-performance and bonus-calculation models that compare actual output with targets and allocate eligible incentives using salary-based, weighted, and efficiency-driven business rules.
- Created a production-target calculator based on operation-level stopwatch time studies, model-specific requirements, department and line rollups, and configurable allowances for breaks, needle changes, and other operational loss time.
- Built end-to-end Power BI reporting using folder-based Excel ingestion through Power Query, data modeling, DAX measures, dashboards, and executive reporting for the Production Manager, General Manager, and owner.
- Extended recurring data preparation and automation through SQL, Python, Pandas, and AI-assisted scripting, validating calculations and business logic before reporting use.

Operations and Logistics Analyst

SEDRA Group, Fifth Settlement, Cairo, Egypt | February 2026 - March 2026

- Analyzed weekly order datasets to forecast vehicle requirements, support daily delivery planning, and resolve operational issues between the factory and branches.

Logistics Coordinator, Part-Time / Remote Support

SEDRA Group, Cairo, Egypt | January 2025 - February 2026

- Supported logistics coordination and data-driven follow-up for daily delivery operations.

Operations and Logistics Coordinator

SEDRA Group, Cairo, Egypt | July 2023 - December 2024

- Managed overnight delivery planning and coordinated urgent B2B deliveries, including support for Samsung and ENPPI.

Administrative and Data Coordinator, Military Service

Egyptian Police Forces, Egypt | January 2025 - February 2026

- Managed and audited personnel databases using Microsoft Access and Advanced Excel to support data accuracy and compliance.

Customer Service Agent

Vodafone, Maadi, Cairo, Egypt | November 2022 - June 2023

- Resolved technical and service-related customer issues and maintained accurate records through Oracle Siebel CRM.

Customer Service Agent

Orange Egypt, Kattamia, Cairo, Egypt | March 2022 - October 2022

- Provided customer support and maintained accurate case follow-up in a high-volume contact-center environment.

SELECTED ANALYTICS PROJECTS

Company Data and Intelligence Platform — Built A to Z, Solo (Vibe Coding)

Internal web platform for a data analysis and data entry company | 2026

- Independently designed and developed the company's complete internal web platform end to end — architecture, interfaces, logic, and deployment — using AI-assisted development, with full personal review of every rule and output.
- Platform covers structured data-entry workflows, validation and analysis layers, and company balance and performance dashboards that keep management's standing and direction visible at a glance.
- Turned management reporting into a self-service decision cockpit: leadership reads the same validated truth and decides faster, with a clear view of where the company is heading.

E-Commerce Logistics and Operations Performance Dashboard

Power BI case study | 10K+ orders analyzed

- Analyzed 10K+ orders to identify cash-on-delivery return patterns, hub and carrier defect concentration, CRM classification issues, and delay-related customer-satisfaction impact. Tools: Power BI, Data Modeling, Star Schema, DAX, Matrix Heatmap.

Pizza Store Sales Performance Dashboard

Power BI case study

- Analyzed demand patterns, peak operating hours, and product performance through an interactive sales dashboard. Tools: Power BI, Power Query, DAX, Data Modeling.

Uber Operations Performance Dashboard

Power BI case study

- Monitored daily operations, revenue, and trip-cancellation indicators to support operational review. Tools: Power BI, Power Query, DAX.

EDUCATION

Bachelor's Degree in Agriculture, Poultry Production

Ain Shams University, Cairo, Egypt

PROFESSIONAL DEVELOPMENT

Professional Data Analyst Track — Current Trainee

Digital Egypt Pioneers Initiative (DEPI)

IBM SkillsBuild — Data Fundamentals (Verified Badge)

Credly-verified credential

Oracle University — AI for You (Learning Badge)
